

HEALTH AND SAFETY POLICY

1. STATEMENT OF GENERAL POLICY

1.1. Waste Management Resources fully accepts the obligations placed upon it by the various Acts of Parliament covering health and safety. Waste Management Resources requires its Managing Director to ensure that the following policy is implemented and to report annually on its effectiveness.

2. MANAGEMENT ORGANISATION AND ARRANGEMENTS

Introduction

2.1. This policy has been prepared and published under the requirements of Health & Safety at Work legislation. The purpose of the policy is to establish general standards for health and safety at work and to distribute responsibility for their achievement to all managers, supervisors, and other employees through the normal line management processes.

3. MANAGEMENT RESPONSIBILITIES

Managing Director

3.1. The Managing Director has overall responsibility for the implementation of Waste Management Resource's policy. In particular he is responsible for ensuring that the policy is widely communicated and that its effectiveness is monitored.

Senior Managers

3.2. These managers are wholly accountable to the Managing Director for the implementation and monitoring of the policy within the area of their specified responsibility.

Safety Officer

3.3. The Safety Officer is a nominated manager responsible for co-ordinating effective health and safety policies and controls across the organisation.

3.4. The Safety Officer is responsible for:

- the production and maintenance of Waste Management Resource's policy and ensuring that Guidelines are consistent with policy;
- its application;
- monitoring and reporting on the effectiveness of the policy;
- the provision of general advice about the implication of the law;
- the identification of health and safety training needs. The safety officer also acts on behalf of the Managing Director, as Waste Management Resources's formal link with the Health and Safety Executive, Environment Health Departments and other external agencies;
- the production and maintenance of Health and Safety Codes of Practice for each aspect of the services within Waste Management Resources.

3.5.3.5 Responsibilities for Specific Workplace Areas

WORKPLACE AREA	SENIOR MANAGER	ACCOUNTABLE TO THE SENIOR MANAGER FOR HEALTH AND SAFETY IN THEIR DEPARTMENTS
Office Yard/Operations	Sandra Senlgrove / Finance Manger Graham Down/Operations Manager	All Department Managers are accountable to the Managing Director of Waste Management Resources for their respective areas

4. HEALTH AND SAFETY MANAGEMENT PROCESS

- 4.1. Waste Management Resources believes that consideration of the health, safety and welfare of staff is an integral part of the management process. The provision of the Health and Safety at Work etc Act, associated Codes of Practice and E.C. Directives will be adopted as required standards within Waste Management Resources. Responsibility for health and safety matters shall be explicitly stated in management job descriptions.
- 4.2. Waste Management Resources requires managers to approach health and safety in a systematic way, by identifying hazards and problems, planning improvements, taking executive action and monitoring results so that the majority of health and safety needs will be met from locally held budgets as part of day-to-day management, although many health and safety problems can be rectified at little additional cost.
- 4.3. For major additional expenditure, cases of need will be submitted by Managers to the Managing Director.
- 4.4. If unpredictable health and safety issues arise during the year, the Managing Director must assess the degree of risk, in deciding the necessary resources and actions to commit to addressing these issues.

5. HEALTH, SAFETY AND WELFARE GUIDELINES

- 5.1. It is the policy of Waste Management Resources to require managers to produce appropriate health and safety policies or guidelines. These should embody the minimum standards for health and safety for the department and the work organised within it.
- 5.2. It shall be the responsibility of the manager to bring to the attention of all members of his or her staff, the provisions of the guidelines, and to consult with appropriate Health and Safety Representatives about the updating of these guidelines. The model contents of a guideline are:
 - a clear statement of the role of the department;
 - regulations governing the work of the department;
 - clear reference to safe methods of working, for example operating procedures, manufacturers' manuals;
 - information about immediate matters of health and safety concern, such as fire drills, fire exits, first aid;
 - training standards;
 - the role and identity of the Health and Safety Representative;
 - names of specialist advisers who can be approached about the work of the department;

- the manager responsible for organisation and control of work;
- accident reporting procedures;
- departmental safety rules;
- fire procedures;
- policies agreed by Waste Management Resources.

6. IDENTIFICATION OF HEALTH AND SAFETY HAZARDS - ANNUAL AUDIT AND REGULAR RISK ASSESSMENTS

6.1. It is the policy of Waste Management Resources to require a thorough examination of health and safety performance against established standards in each department, **at least** annually. This requires a review of:

- standards laid down in the policy;
- departmental guidelines;
- relevant regulations;
- environmental factors;
- staff attitudes;
- staff instructions;
- methods of work;
- contingency plans;
- recording and provision of information about accidents and hazards and the assessment of risk.

6.2. The information obtained by the review will be used to form the basis of the plan for the department for the following year.

6.3. The responsibility for ensuring that a review is carried out as part of this policy rests with the Managing Director. Although the review remains a management responsibility, managers are required as part of this policy to seek the involvement of the appropriate Health and Safety Representative in the conduct of the review.

6.4. It is the management's responsibility to ensure that any deficiencies highlighted in the review are dealt with as speedily as possible.

6.5. In addition to carrying out Safety Reviews, it is the responsibility of the department manager to check, at least quarterly, all portable equipment, including electrical appliances, in their area, and to ensure that all problems are immediately dealt with.

6.6. Managers have a continual responsibility for the elimination of hazards in order to maintain a safe working environment and will also be expected to carry out regular **risk assessments** in line with the Health and Safety Executive Guidelines; that is follow the 5 steps:

1. Identify the hazards
2. Decide who might be harmed and how
3. Evaluate the Risks and decide on precautions
4. Record the findings and implement the precautions
5. Review the assessment and update when necessary

7. SAFETY REPRESENTATIVES

7.1. Waste Management Resources will support Safety Representatives in carrying out their role and give all reasonable assistance. Safety Representatives will be encouraged to discuss specific health and safety issues with the relevant

Department Manager. They may also formally report hazardous or unsafe circumstances to the Department Manager and will be formally notified of the remedial action taken or be given a reason why the action cannot be taken.

8. TRAINING

8.1. Health and Safety training shall be incorporated within annual training programmes, as part of the development of a systematic training plan. Health and Safety training needs will, therefore, be identified and planned for in the same manner as other training needs.

8.2. Four areas of need shall be given special priority:

- training for managers, to equip them with an understanding of the manager's responsibilities under this policy, and the role and purpose of safety representatives;
- training for safety representatives to enable them to discharge their function;
- training for all members of staff to acquaint them with the main provisions of the law and its practical implication, the main features of this policy and key safety rules;
- induction and in-service training for staff at all levels to acquaint them fully with new requirements and hazards.

9. RECORDS, STATISTICS AND MONITORING

9.1. Waste Management Resources will operate systems for recording, analysis and presentation of information about accidents, hazard situations and untoward occurrences. Advice on systems will be provided by the Safety Officer, in conjunction, where appropriate with specialist advisory bodies for example local Environmental Health Departments, and the responsibility for the operation of these systems rests with managers and supervisors at all levels. Information obtained from the analysis of accident statistics must be acted upon and, where necessary, bids for additional expenditure made to the Managing Director

10. REPORTS TO THE HEALTH AND SAFETY EXECUTIVE

10.1. The responsibility for meeting the requirements of the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1985 to the Health and Safety Executive, shall rest with the Managing Director as delegated to the Safety Officer.

11. SPECIALIST ADVISORY BODIES

11.1. Certain bodies and the individual members of those bodies, have always had a Health and Safety role, most notably, the Health & Safety executive, or local Environmental Health Departments. If further specialist advice is required, this may be obtained by Managers from expert individuals or bodies outside Waste Management Resources.

12. THE OCCUPATIONAL HEALTH SERVICE

12.1. It is the policy of Waste Management Resources to provide Occupational Health Services. Such services are provided confidentially to the individual employee and include counselling on health and associated matters, investigation of hazards and accidents, environment studies, health interviews and employment medicals.

13. FIRST AID

13.1. It is the policy of Waste Management Resources to make provision for First Aid and the training of 'First Aiders' in accordance with the First Aid Regulations (1982). The Safety Officer is responsible for ensuring the Regulations are implemented and for identifying training needs.

14. FIRE

14.1. The Managing Director is responsible for ensuring that staff receive adequate fire training, and that nominated fire officers are designated in all Company premises. The Managing Director delegates these responsibilities to the Managers.

14.2. In addition Waste Management Resources will nominate a Fire Officer (this may be the Safety Officer or someone external to Waste Management Resources)

- report and advise on the standard of fire safety in Waste Management Resources's premises and the standard of fire training of its staff;
- undertake overall responsibility for fire training;
- assist in the investigation of all fires in Waste Management Resources's premises and to submit reports of such incidents.

15. LIFTING AND HANDLING

15.1. Managers are responsible for informing staff of safe lifting techniques. The Safety Officer will identify specific training needs and will ensure training in lifting and handling is provided to staff who require it.

16. NON-SMOKING ON COMPANY PREMISES

16.1. Waste Management Resources has agreed that there will be no smoking in its buildings. The overall aim is to reduce smoking and so save life, reduce risk of fire, prevent unnecessary illness and chronic disability. The rules relating to smoking on Company premises are available in the staff Handbook which is provided to staff on induction.

17. CONTROL OF SUBSTANCES HAZARDOUS TO HEALTH

17.1. The Control of Substances Hazardous to Health Regulations (COSHH) requires Waste Management Resources to identify those substances which are in use and which are hazardous to health (as legally defined) and to assess the risk of those substances. Waste Management Resources must also provide and use controls to prevent exposure to substances hazardous to health; maintain controls by monitoring exposure, or by health surveillance of employees; and provide information, instruction and training for employees on all these matters. The Safety Officer is responsible for implementing these Regulations.

18. COMPUTER INSTALLATIONS AND VISUAL DISPLAY UNITS

18.1. All new computer installations must adhere to the British Standard Specifications and comply with the Health and Safety (Display Screen Equipment) Regulations 1992. All new employees operating VDUs are issued with a copy of the Health and Safety Executive Booklet entitled 'Working with VDUs'. New employees who regularly use VDUs will be required to complete a work station risk assessment.

19. CONTROL OF WORKING TIME

19.1. Waste Management Resources is committed to the principles of the Working Time Regulations. No member of staff is expected to work more than 48 hours per week (including overtime) unless there are exceptional circumstances. Similarly all other requirements of the regulations e.g. in relation to breaks, night workers etc. will be complied with.

20. HEALTH AND SAFETY AND THE INDIVIDUAL EMPLOYEE

20.1. The Health and Safety at Work Act requires each employee 'to take reasonable care for the Health and Safety of himself and of other persons who may be affected by their acts and omissions' and co-operate with management to enable management to carry out their responsibilities under the Act. Employees have equal responsibility with Waste Management Resources for Health and Safety at Work.

20.2. The refusal of any employee to meet their obligations will be regarded as a matter to be dealt with under the Disciplinary Procedure. With a continuing problem, or where an employee leaves themselves or other employees open to risk or injury, it may be necessary to implement the formal stages of the Disciplinary Procedure.

21. PEOPLE WORKING ON COMPANY PREMISES NOT EMPLOYED BY WASTE MANAGEMENT RESOURCES

22. Persons working in Waste Management Resources premises who are employed by other organisations are expected to follow Company Health and Safety Policies with regard to the safety of Company employees, their own personal safety (and that of other parties such as the general public if appropriate) and their method of work. This responsibility will be included in contracts or working arrangements.

23. VISITORS AND MEMBERS OF THE PUBLIC

23.1. Waste Management Resources wishes to ensure that as far as is reasonably practicable, the Health, Safety and Welfare of visitors to Company establishments will be of the highest standard.

23.2. Any member of staff who notices persons acting in a way which would endanger other staff, should normally inform their Manager. If the danger is immediate, common sense must be used to give warning, call for assistance or give aid as necessary. It is equally important not to over-react to a situation.

24. CONTRACTORS

24.1. Waste Management Resources wishes to ensure that as far as is reasonably practicable, the Health, Safety and Welfare of Contractors working in Waste Management Resource's establishments will be of the highest standards. In addition, Contractors and their employees have an obligation so far as is reasonably practicable to ensure all equipment, materials and premises under their control are safe and without risks to health.

24.2. Contractors must also observe Waste Management Resources' Fire Safety Procedures. These obligations will be drawn to the attention of the Contractors in the contract document issued to them. Any member of staff who judges there is a risk where contractors are working, should inform their Manager immediately.

24.3. In tendering, Contractors will be asked to confirm they have a written Health, Safety and Welfare Policy. The Waste Management Resource's Manager setting the Contract Terms will be responsible for monitoring the Health and Safety performance of the Contractor.
